

When cooking, save your fruit and vegetable scraps. You can store your food scraps in the refrigerator or freezer

The finished compost is distributed to urban farms and community gardens in NYC to grow even more fruits and vegetables for us to eat! We nourish the soil, soil nourishes plants, plants nourish us – a full cycle

Bring them to a food scrap drop off location near you

COMPOST YOUR FRUIT AND VEGETABLE SCRAPS WITH

Hosted by

Lower East Side Ecology Center

It's a simple way that YOU can help to make NYC more sustainable, vibrant and beautiful

We will process your food scraps locally

...And transform them into finished compost which nourishes and adds life to the soil
